SUMMARY

Full-stack engineer with a frontend focus and backend fluency. I build clean, scalable systems and polished user experiences that solve real-world problems. I'm eager to contribute to teams that value thoughtful engineering, modern tools, and meaningful impact.

SKILLS

App Development React Native ■ Xcode ■ Android Studio ■ Redux ■ Expo

Frontend Development React ■ Next ■ Svelte ■ Astro ■ Vite ■ Tailwind ■ SCSS ■ A11y ■ Tanstack

Backend Development Express ■ GoLang ■ Python ■ MySQL ■ Postgres ■ Prisma ■ Redis

Miscellaneous NodeJS ■ Bun ■ Docker ■ Shell Scripting ■ Git ■ Linux ■ Cloudflare

WORK EXPERIENCE

Full Stack Engineer (React Native / Golang) - [Independent Client](#) (Remote) | Part Time Oct 2025 - Present

- Sole developer on the React Native mobile app, with a strong focus on iOS, working closely with a Golang backend.
- Integrated PostHog analytics across the mobile app and backend.
- Worked with a production grade AWS-based architecture supporting backend services and deployments.

Backend Engineer (Golang / Devops) - [Independent Client](#) (Remote) | Part Time Apr 2025 - Present

- Developed and maintained backend APIs using Go (Mux) and Python scripts, focusing on reliability, maintainability, and performance.
- Built internal developer tools for automating API testing, configuration parsing, and OpenAPI (YAML) schema management.
- Containerized services using Docker, optimizing image sizes with multi-stage builds and ensuring production-ready deployments.
- Integrated CI pipelines and automated workflows (GitHub Actions / Makefiles) for backend builds, migrations, and testing.
- Collaborated asynchronously with remote teams, delivering backend modules and documentation aligned with client engineering standards.

Frontend Engineer (React) - [Digital Nomadic Solutions](#) (Remote) | Full Time Oct 2024 - Sep 2025

- [Community College Career Connect](#):
 - Contributed to the development of a highly accessible front-end for a custom job board and applicant tracking system.
 - Helped launch the product in January 2025, which now serves thousands of daily active users.
 - Developed a fully type-safe web application using Next.js, Prisma, and tRPC, adopted by 120+ college systems and multiple third-party API consumers.
- [Masjid As-Sunnah San Diego's website](#):
 - Led the end-to-end development and launch of a modern website for the Masjid in August 2025.
 - Oversaw project planning, architecture, and implementation while guiding the team through delivery.
 - Built with Astro, and Strapi CMS and deployed on Cloudflare, optimized for speed, accessibility, and scalability.
 - Designed to serve the local Muslim community with prayer times, resources, and donation features.

React Native/React Developer - [GR Tech](#) (On-Site) | Full Time Sep 2023 - Sep 2024

- Worked on a feature rich iOS first application, Logly, from ground up. Features like: Push Notifications via FCM, One-to-one and group chats using Firestore, and native maps.
- Gained experience using Xcode and deployment of iOS apps.

Frontend Engineer (React) - [Symits](#) (On-Site) | Full Time Jul 2022 - Aug 2023

- Contributed to the React-based front-end of Indolj, a platform used by over 300 restaurants and serving thousands of daily active users (DAU).
- Independently migrated a production-grade CRA application to Next.js, significantly improving SEO performance and maintainability.
- Implemented complex interactive features like custom Google Maps drawing tools for defining delivery zones and radii.
- Built a performant chatbot from scratch using React and Firebase, applying tree depth-first search (DFS) strategies to optimize user interaction flow.

Full Stack Developer - Freelance (Remote) | Full Time Jan 2021 - Jul 2022

- Worked on various projects involving different domains and programming languages, primarily focusing on Python and Javascript.
- Developed various static sites and interactive web applications using React.js.
- Gained understanding of computer science fields like Socket Programming, Database Design, and Desktop App Development.
- Developed strong project management skills, including setting timelines, meeting deadlines, and collaborating with clients effectively.

EDUCATION

- BS in Computer Science | Iqra University | 3.4 2020 - 2024

ACHIEVEMENTS

- Final Year Project got funded from government institution, [Ignite](#) Sep 2024
- 1st position | Speed Coding | Robomania'23 (UIT) Jun 2023
